

Ana Muros :)

AI Motion Designer and Creative Technologist with 11+ years of experience creating high-performing paid social content for global brands. I combine motion design, creative direction and AI-assisted production to build scalable creative systems, turning single ideas into multiple variations that test faster, learn faster and drive results. Proven track record in user acquisition and performance marketing: 31% ROI on \$74K+ media spend. Currently leveraging the latest AI generative tools (Sora, Veo, Higgsfield, Runway) to accelerate ideation, iteration and production of conversion-focused creatives across Meta, TikTok and Instagram.

Hello! here my portfolio

Work Experience >

AI Motion Designer | Creative Technologist

Welltech | Jan 2025 – Present

- Create high-impact paid social creatives for user acquisition campaigns across Meta, TikTok and Instagram, combining motion design, creative direction and AI-assisted production to scale video output.
- Use AI video tools (Veo, Sora, Higgsfield, Runway Gen-4) to rapidly explore and generate creative concepts, increasing speed and variation in performance-driven campaigns.
- Produce AI-assisted video, voice and music assets using ElevenLabs and Suno to deliver faster, more varied creatives without scaling headcount.
- Achieved 31% ROI on \$74K+ media spend through continuous creative iteration, A/B testing and performance-based optimisation.
- Automate production workflows using After Effects expressions and scripting, including Creative Factory pipelines to generate 20–100 creative variations per winning concept, covering subtitle generation, localisation, color correction and scalable output.

Creative Technologist | Motion Designer (Rich Media & Front-End)

Publicis Groupe | Feb 2016 – Jan 2025

- Designed and built interactive motion systems for global brands using GSAP, HTML5 and Lottie, focused on scalable and high-performing digital advertising experiences.
- Developed reusable creative frameworks and motion systems that enabled high-volume production of banner and rich media campaigns across multiple formats and markets.
- Automated production workflows using After Effects expressions, templates and scripting to streamline motion production and reduce turnaround times in fast-paced agency environments.
- Delivered scalable creative assets for global paid media and brand campaigns across multiple international clients.

UI Developer | Web Designer (Early Career)

Universitat de Barcelona | Principios Interactivos | Altran Grupo Hedima | 2007 – 2016

- Developed UI, UX and web solutions for educational and institutional platforms focused on usability, responsive design and e-learning
